

CREATIONS

For students in 3rd & 4th years

1. Advanced artists may continue working on your landscape.
2. If you have finished, you should use the references provided to create one or two finished drawings in pencil or oil pastels. Work on accuracy using the 3 Steps.
 1. **Frame.** Get the proportions accurate.
 2. **Big shapes.** Find your touch-points and use guide lines, modifying by erasing and redrawing until they are super-accurate!
 3. Then enjoy the rest of the time working with **details** in pencil or oil pastels.
3. You may feel like you remember the 3 Steps clearly, and don't need review, but memory can trick us. Watch the slide show and try to help newer artists understand the importance of this method.
4. You may also want to tackle the color mixing game and do a higher quality blending than you were able 2 years ago. Have fun!
