

CREATIONS

For students in 3rd & 4th years

Overview: You have freedom to choose a project of your own, and/or to finish any current work in progress.

Having freedom does not mean you get to play or skip the normal steps needed to create artwork. Use the PDFs in the lesson for finding subject matter and media.

Please do not start painting on a canvas with no plan and no guidelines. Or even to start guidelines but drawing right on canvas or watercolor paper before any kind of warm up or practice drawing. It may sound great to jump ahead to the fun stuff as if you no longer need to follow any kind of plan, but a plan and warm up is your foundation for good work.

Look at your 7 Steps to Making Art (get your teacher to print a new one if you don't have it). Follow these steps, just like the most advanced artists always do. Being advanced means you do them *automatically*, not skip them. The foundations are things you always build your work on.
