

3 STEPS TO ACCURACY

1. **Frame** First (the box has set proportions)
2. **Big Shapes** Next
3. **Details** - The fun part.

Notice where big shapes touch the frame

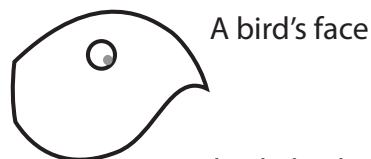

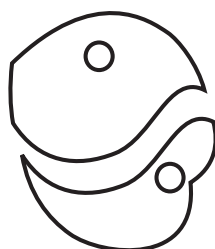

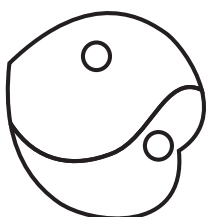

Use your imagination to isolate shapes

Notice how close things are to other things. For instance, these are almost touching here.

Look for familiar things in your shapes. It can help you redraw them accurately

A bird's face

A bird's body

A boot
