

CREATIONS

For students in 3rd & 4th years

Any time you find yourself finishing a project early, you have an opportunity to choose your own project. Take care to make this time valuable, since you're in class and have tools and a teacher.

Follow the 7 Steps to making art:

1. **Inspiration** - Find something you want to do, or if you don't know, look through a collection of images for inspiration. Art magazines or coffee table books are great for this. **DON'T** use devices for Inspiration
 - Imagine the style and technique you want.
 - Also decide what **Medium** you want to use, such as:
 - **Pencil**
 - **Ink**
 - **Paint**
 - **Pastels**
2. **Reference** - Sometimes your inspiration becomes the reference, but if not, find pictures or objects you want to use.
3. **Practice Drawings** - 3 kinds
 - **Thumbnails** - for composition and learning your subject's Big Shapes
 - **Fast Sketches** - for learning the subject
 - **Detailed Sketches** - for working out technique and practicing difficult areas
4. **Set Up** - Arrange your workspace to be comfortable.
5. **Guidelines** - Use very light lines for your BIG SHAPES, on paper, or canvas using the canvas pencil. Don't shade areas in.
6. **ART!** - Make your work and enjoy expressing yourself.
7. **Clean Up** - Of course. Make sure you super-wash your brushes.

CREATIONS

For students in 3rd & 4th years

Any time you find yourself finishing a project early, you have an opportunity to choose your own project. Take care to make this time valuable, since you're in class and have tools and a teacher.

Follow the 7 Steps to making art:

8. **Inspiration** - Find something you want to do, or if you don't know, look through a collection of images for inspiration. Art magazines or coffee table books are great for this. **DON'T** use devices for Inspiration
 - Imagine the style and technique you want.
 - Also decide what **Medium** you want to use, such as:
 - **Pencil**
 - **Ink**
 - **Paint**
 - **Pastels**
9. **Reference** - Sometimes your inspiration becomes the reference, but if not, find pictures or objects you want to use.
10. **Practice Drawings** - 3 kinds
 - **Thumbnails** - for composition and learning your subject's Big Shapes
 - **Fast Sketches** - for learning the subject
 - **Detailed Sketches** - for working out technique and practicing difficult areas
11. **Set Up** - Arrange your workspace to be comfortable.
12. **Guidelines** - Use very light lines for your BIG SHAPES, on paper, or canvas using the canvas pencil. Don't shade areas in.
13. **ART!** - Make your work and enjoy expressing yourself.
14. **Clean Up** - Of course. Make sure you super-wash your brushes.
