

Zig-Zag Art

NAME: _____

STEP 1: Draw your scene in the box, with no shading. Use only lines.

TheArtInstructor.com © Dennas Davis

Teacher: After the line-drawing is finished, make a copy so artists can do a day-color version on their original and a night-color version on the copy, using oil pastels. CUT along the bold top and bottom dashed lines before cutting the strips apart. Then cut the 9 strips using a paper cutter or knife and ruler, aligning the dotted ARROW lines to separate the 9 strips. Keep each students' strips **together** in a folder! **VERY IMPORTANT:** Leave the **numbered tabs** **attached** to each strip at the top so they can be pasted in order on the base.

Second, cut these dotted arrow lines to separate the strips, leaving the numbered tabs attached.
